

2011 Engineers Canada-TD Insurance Meloche Monnex Léopold Nadeau Scholarship Recipient *Véronique M. Morin, P.Eng.*

*Association of Professional Engineers,
Geologists and Geophysicists of Alberta*

*Ph.D., Disaster Preparedness,
Mitigation and Management
Asian Institute of Technology
Bangkok, Thailand*

V*éronique M. Morin, P.Eng.’s desire to work collaboratively to help communities most at risk from natural hazards is at the root of her pursuit of a Ph.D. in Disaster Preparedness, Mitigation and Management at the Asian Institute of Technology, Bangkok, Thailand. Initially drawn to engineering because of the profession’s collegiality and strong sense of purpose, Véronique’s engineering work has allowed her to travel extensively and witness first-hand the destruction caused by natural disasters in coastal communities. Her research will focus on investigating cyclone-induced hazards, such as storm surge inundation, flooding from excess rainfall, and erosion in a specific area. She will study these hazards and how climate change affects their severity and frequency, as well as examine the social, economic, and environmental impacts. Her research emphasizes an interdisciplinary approach to finding sustainable solutions for the most affected populations.*
