

## Accredited engineering programs by institution

### Notes:

- a) This listing of accredited programs includes only engineering programs which lead to a bachelor's degree.
- b) Institutions listed have voluntarily requested that specific engineering programs be evaluated by the Accreditation Board. The terminology requested by the institution is shown.
- c) A single date which follows the name of a program indicates the year of the first graduating class for which accreditation applies. It also applies to subsequent years and is still in force.
- d) A double date following the name of a program indicates the period (inclusive of both years) for which the program was accredited. This may occur if the institution has discontinued the program under that specific name or has not requested renewal of accreditation or if the Accreditation Board has denied such renewal.
- e) The appearance of a third date indicates that accreditation has been renewed from that particular year on, after a time interval.

## Programmes de génie agréés par établissement

### Remarques :

- a) La liste des programmes agréés ne comprend que les programmes de génie menant au grade de bachelier.
- b) Les établissements d'enseignement énumérés ont, de leur propre chef, demandé au Bureau d'accréditation d'évaluer certains de leurs programmes. La terminologie utilisée est celle qui a été choisie par l'établissement.
- c) Lorsque le nom d'un programme est suivi d'une seule date, cette date correspond à l'année de la première promotion à laquelle l'accréditation s'applique. L'accréditation s'applique également aux années subséquentes et est toujours en vigueur.
- d) Lorsque le nom d'un programme est suivi de deux dates, ces dates correspondent à la période (y compris les deux années mentionnées) pour laquelle le programme a bénéficié de l'accréditation. Une telle situation peut se produire si l'établissement a cessé d'offrir le programme sous ce nom particulier, si l'accréditation est arrivée à son terme sans que l'établissement en demande le renouvellement, ou encore si le Bureau d'accréditation a refusé d'accorder ce renouvellement.
- e) Si une troisième date apparaît, celle-ci indique le renouvellement de l'accréditation à partir de cette année-là, après un intervalle.
